

Swiss Young Internists

**SWISS YOUNG
INTERNISTS**

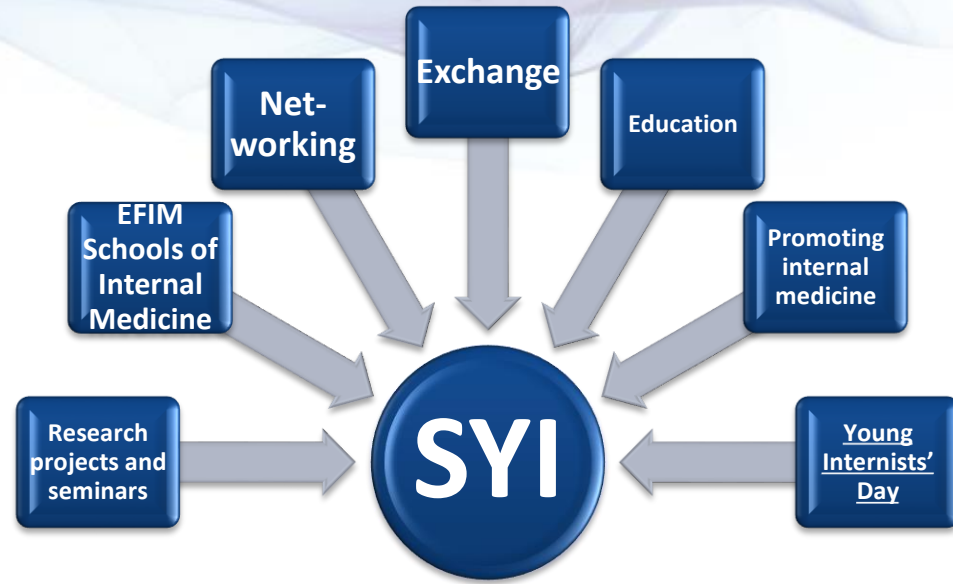

Welcome to **Swiss Young Internists!**

No matter whether you are a generalist or you subspecialize - we join here to create a strong network of Swiss doctors who share the passion for internal medicine!

SYI is a part and is closely cooperating with the European Federation of Internal Medicine (**EFIM**) and Swiss Society of General Internal Medicine (**SGAIM**).

We are a part of the
Swiss IM Journal
“Praxis”!

As a part of **EFIM Young Internists** - we join young internists from all Europe to:

- revitalize the internal medicine in Europe,
- define and improve the professional standards of our specialty
- influence the administrative processes
- enforce paneuropean exchange, research and education.
