

5th HEP PATH Symposium

January 28th 2027
Spittelsaal, GenerationenHaus, Bern

UPDATING KNOWLEDGE IN TISSUE MEDICINE IN HEPATOLOGY: FROM COMMON TO RARE LIVER DISEASES

Chairs:
Prof. Dr. med. Annalisa Berzigotti / Dr. med. Matteo Montani

INSELSPITAL
UNIVERSITÄTSSPITAL BERN
HÔPITAL UNIVERSITAIRE DE BERNE

IGMP Institut für Gewebemedizin und Pathologie

SASL

AGENDA

10.00 – 10.10	Introduction (Annalisa Berzigotti / Matteo Montani)
	Steatotic liver disease: Should liver biopsy impact therapeutic choice?
10.15 – 10.45	Drug-treatment for MASH – Jörn Schattenberg, Germany
10.45 – 11.15	Is digital tissue medicine changing how we diagnose MASH? – Timothy Kendall, UK
	Drug-induced liver injury (DILI) and Checkpoint inhibitor liver injury (ChILI)
11.15 – 11.45	Novel clinical aspects: DILI and ChILI – Guido Stirnimann, Bern
11.45 – 12.15	What a pathologist should not miss in DILI and ChILI – Matteo Montani, Bern
12.15 – 12.30	**Discussion**
12.30 – 14.00	**Lunch Break**
	Liver Transplantation
14.00 – 14.30	Cellular and humoral rejection – Julien Vionnet, Lausanne
14.30 – 15.00	The new Banff classification – Achim Weber, Zurich
	Hepatocellular adenomas
15.00 – 15.30	New clinical and surgical guidelines – Anja Lachenmajer, Bern
15.30 – 16.00	Lessons learnt from tissue medicine – Christine Sempoux, Lausanne
16.00 – 16.30	**Coffee Break**
	Workshop
16.30 – 18.00	Unexpected cases in hepatology (Residents hepatology and pathology + 1 senior discussant from each)
	Q&A and Closure (Annalisa Berzigotti / Matteo Montani)

SGG/SSG: 6 credits
SGPath: 6 credits
SGAIM: 2 credits

Organizer: endresprojects
